A Note to Parents

DK Readers is a four-level interactive reading adventure series for children, designed in conjunction with leading literacy experts, including Dr. Linda Gambrell, Distinguished Professor of Education at Clemson University. Dr. Gambrell has served as President of the National Reading Conference, the College Reading Association, and the International Reading Association.

Beautiful illustrations and superb full-color photographs combine with engaging, easy-to-read stories to offer a fresh approach to each subject in the series. Each DK Reader is guaranteed to capture a child's interest while developing his or her reading skills, general knowledge, and love of reading.

The four levels of DK Readers are aimed at different reading abilities, enabling you to choose the books that are exactly right for your child:

Level 1: Learning to read

Level 2: Beginning to read

Level 3: Beginning to read alone

Level 4: Reading alone

The “normal” age at which a child begins to read can be anywhere from three to eight years old. Adult participation through the lower levels is very helpful for providing encouragement, discussing storylines, and sounding out unfamiliar words.

No matter which level you select, you can be sure that you are helping your child learn to read, then read to learn!
